## Avant-propos

Ce livre est un recueil de poèmes écrits partir de noms de réseaux Wi-Fi (SSID) récoltés dans différentes villes d'Europe, d'Asie, d'Afrique et d'Océanie. Les SSID sont intacts et ne contiennent pas d'espace.

On distingue quatre formes :

- La liste brute de 12 SSID divisée en 2, 3 ou 4 paragraphes.
- Le haïku classique en trois ligne respectant la métrique 5-7-5.
- Le carré arithmogrammatique de 16 caractères par 8.
- La pyramide arithmogrammatique de 9 SSID au nombre de caractères croissant
